STEWART'S NEW IDEA.

The Central Pacific's, ostensibly Nevada's United States Senator, is a generator of ideas. The last one is a ten million National Normal school to be located at the National Capital, in which Stewart Castle No. 1 is. This idea is one that will make both educators and statesmen smile. It is a large idea, involving the expenditure of ten millions of dollars of the people's money to advertise the Central Pacific Railroad's right bower. It is a potent idea, worthy of the brain that would dismember Idaho and portion her parts to the adjoining States and Territories. It is as high sounding as it is Utopian. It is slightly tainted with centralization, which is always dangerous.

The Journal does not disfavor normal schools, but advocates them. They are essential parts in the system of education. They are recognized as such by most of the northern States, which have made provisions for their establishment and maintenance, as they have made most liberal provisions for the support of their common schools. The National representatives have recognized the fact that upon the intelligence of the people depends the perpetuity of the Government, hence the liberal donations of lands to the several States for educational purposes. For many years Congress has practically said to the several States that each is the guardian of its educational interests; that each should see that school houses are built here and there. For that purpose a section was set aside out of each township, in lieu of which Congress granted to and Nevada accepted, the two-million grant. Yet this mortal Hercules, who has been and is, in fact a Californian, would have Nevada contribute to the erection of a ten million institution which would prove an incubus on the nation, to gratify his vanity in creating an idea. Verily, it is a forerunner of what Wm. Stewart will do for the State of Nevada while he is representing the Central Pacific Railroad for the next six years.

It is expected, although not yet authoritatively announced, that the Denver and Rio Grande will soon put on an additional fast express train between Denver and Ogden. This action will be to keep pace and compete with the Union Pacific, which will begin next Sunday running two daily overland trains in conjunction with the Central Pacific. The Rio Grande will endeavor to make the same time connections with the Central Pacific at Ogden as the Union Pacific. Arrangements are being made with the Burlington route to have fast connecting trains from Chicago to Denver and by this plan it is expected to make as good time between Ogden and Chicago via the Rio Grande as via the Union Pacific connecting with any of the Iowa roads. The scenery of the Rio Grande route has always been the chief reason for its patronage by through travelers. Now by making as good time between Ogden and Chicago as the Union Pacific route, the Rio Grande managers hope to lead the Union Pacific.

The attorneys for Robert F. Morrow, under indictment for jury-bringing whose case is set for trial in Judge Sullivan's Court, San Francisco, on Monday next, have filed an application for a change of venue. The application is based on the difficulty in obtaining a jury in the other trial and the public sentiment alleged to prevail adverse to Morrow, which it is claimed will prevent his getting a fair trial in that city.

Gen. Black, Commissioner of Penitentiaries, has left Washington on a tour to inspect the soldiers' homes in the West, and especially to visit the Pacific Coast to assist in selecting a site for a new brucite home provided by the Act of Congress to be established here.

Why are W. M. Boardman and W. L. Kox allowed offices in the Court House. They have no more right to free rent than any of the other lawyers. And who pays for the wood and gas burned in the rooms occupied by these gentlemen?

The smallpox scourge is breaking out again in the northern part of San Francisco, in the Spanish and Italian quarters. Three new cases were discovered Tuesday and one Wednesday.

Peace reigns at Tablequah, Indian Territory, and in the Council House the leaders of the belligerent factions are trying to arrange a compromise. GODS FOR SOCIETY PEOPLE.

Mrs. Mark Hopkins to Marry Her Youthful Business Manager.

San Francisco Examiner, November 7.

Mrs. Mark Hopkins is about to furnish people here, in New York city and in her present home, Great Barrington, Mass., with one of the choicest bits of gossip they have had for many moons. She has elected to follow the lead of the Baroness Burdett Coutts and take a young husband to share her millions and her magnificent home.

The fortunate young man is Mr. Sears, the Superintendent of her estate at Great Barrington, and his age is somewhere between 25 and 30 years. The marriage is to take place in New York next Tuesday, and every effort has been made to keep the knowledge that such an event was in contemplation from the general public.

When the death of the oldest member of the great railroad firm left Mrs. Hopkins one of the wealthiest widows in the world, a great deal of speculation about the chances of her bestowing her hand and fortune upon a second husband was indulged in. It was stated positively, after a few years, that she had consented to marry a well-known jurist of this city, but the report was always denied by the members of her family.

Several times since she made Great Barrington her legal residence rumors have floated out to San Francisco that she was about to marry a New York gentleman of about her own age; but until now her relatives felt reasonably sure that she had no idea of bestowing her hand and fortune upon a young man.

It is said that Mr. Sears' excellent management of the vast possessions of Mrs. Hopkins in her adopted town has been one of his chief recommendations to her favor.

THE NATIONAL SOLDIERS' HOME.—Captain William Blanding is in receipt of a letter from General W. B. Franklin, Chairman of the Board of Managers of the National Soldiers' Home, announcing that a special car is to leave New York on the 6th of this month for the purpose of transporting to San Francisco the thirteen members comprising the National Board, for consultation relative to the proposed branch Home on this coast. General Franklin's letter interests Captain Blanding that the car will be in this city the 18th of this month, unless twenty-four hours be taken to visit Salt Lake City, in which case the Captain will be telegraphed from Ogden that the arrival here will be on the 19th inst. After all business shall have been transacted here, the car will return to the East via the Atchison, Topeka and Santa Fe route, so that a visit may be made to the Northwestern Branch Home, Kansas.—S. F. Bulletin.

The Virginia Chronicle says:

Another town has been named after Postmaster General Vilas. As far as the present administration is concerned, the name of Vilas has been conferred on the largest number of towns, while the name of Cleveland stands at the head of the list as regards babies.

The smallpox scourge is breaking out again in the northern part of San Francisco, in the Spanish and Italian quarters. Three new cases were discovered Tuesday and one Wednesday.

A STRONG TEAM.

Senator Hearst's Good Opinion of the California Delegation.

SAN FRANCISCO, Nov. 7.—Senator Hearst will leave for Washington at the end of the week. In an interview with a Call reporter the Senator said: "You must not go off with the idea that I will revolutionize things in Washington, for really I am not such a fool as that. I can't expect to accomplish great things on the floor, but can do something in the committee-rooms. California shall not go empty-handed for lack of asking. I shall strive to obtain an appropriation for Mare Island, of \$175,000, all that is necessary to equip the yard for building the largest vessels. Morrow is a good man, and is doing excellent work. Stanford is a strong man. He has a good pull with the Republicans and I have a good chance of help from the Democrats. So, you see, between us all, we ought to be able to guard the interests of California better than if she had a one-party delegation only." He believes that Cleveland will not only be successful, but that he will carry Massachusetts.

Louis Liugg, one of the condemned Anarchists, attempted suicide Wednesday, by placing a dynamite shell in his mouth, and deliberately applying a candle flame to it. The tissues of his throat, nose and the front of his jaw were torn away.

Mayer Hewitt says that the result of the New York election is a forerunner of the certain renomination and re-election of President Cleveland. He accounts for the shrinkage in the labor vote by what he calls a change of sentiment among Henry George's former followers.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$100,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market.
